-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 October 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

- 6) ☐ Other: _____.

Election/Restriction

* This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: **Independent Claim(s) 1, 9** and intervening claims, drawn to - circuit configured to process one or more fibre channel and SCSI frames of data, the circuit comprising: **one or more gates** configured to validate format information included in a frame of data, wherein error information is written in the frame of data if an error is found in the format information; and **one or more gates** configured to validate command information included in the frame of data, wherein error information is written in the frame of data if an error is found in the command information, wherein the error information for the format information or command information is used in processing a storage operation for the frame of data, wherein the validation of the format information and command information is performed at wirespeed.

Species II: **Independent Claims 14, 25** drawn to - circuit configured to process one or more frames of data, the integrated circuit comprising: a fibre channel **circuit** configured to validate a fibre channel header included in a frame of data, wherein error information is written in the frame of data if an error is found in the fibre channel header; and

a SCSI **circuit** configured to validate a SCSI header included in the frame of data, wherein error information is written in the frame of data if an error is found in the SCSI header,

wherein the error information for the format information or command information is used in processing a storage operation for the frame of data,

wherein the validation of the fibre channel information and SCSI information is performed at wirespeed.

* Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

* Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

* Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

* Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in the rejection under 35 U.S.C. 103(a) of other invention.

* Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
